VBOX Video HD2 (RLVBVDHD2)

VBOX Video HD2 is a dual camera, 1080p, 30 or 60 fps video system including 10 Hz GPS data-logging and a live graphical overlay. The HD2 is compatible with OLED systems, as well as Racelogic modules such as the Micro Input Module and Mini Input Module.

An HDMI variant is available which enables streaming of real-time video and audio from the HD2 to an HDMI compatible monitor, recorder or streaming device.

Further details on the VBOX Video HD2 can be found on our website.

• Quick Start Guide

This guide provides instructions on how to get started with the VBOX Video HD2.
This guide/manual provides an overview of the VBOX Video HD2 product features, its basic operation and specifications.

- 01 - HD2 Introduction
- 02 - HD2 Hardware Overview
- 03 - HD2 Camera Preview App
- 04 - HD2 Logging
- 05 - HD2 Using with OLED display
- 06 - HD2 Connecting to the Vehicle CAN Bus
- 07 - HD2 HDMI Output
- 08 - HD2 Setup Software Overview - Windows
- 09 - HD2 Setup Software Overview - macOS
- 10 - HD2 Technical Properties
